

From Angela Kugler, Kenmore City Councilperson Position 3

I am wholeheartedly endorsing Valerie Sasson for Kenmore City Council - Position Three (whom I've known for almost 15 years) and here's why:

* Valerie embodies the true spirit of a public servant, providing consistent community care and understanding the needs of our diverse population.

* As a midwife, Valerie has cared for countless families, bringing new lives into this world and providing support during the most vulnerable moments.

* She's been inside people's homes, witnessing first-hand the inequities within our community and advocated for better healthcare at the state and national level.

* She's taught at Bastyr, contributing to the education and well-being of future health-care providers.

* And as a former business owner, Valerie understands entrepreneurial challenges and seeks to create a thriving local business environment.

* As a 20+ year resident of Kenmore, Valerie has loved this community in which she and her husband have raised their two daughters.

* She will fight for affordable housing 🏠, reliable transportation 🚇, and a walkable town center, while prioritizing our well-being and the planet 🌍. Her experience and commitment to our community make her the perfect candidate.
